Each game on the schedule is identified as Ambient Audio (crowd sound) or Play-by-Play including the Championship Games. When we broadcast Play-by-Play, the following features are also available for home audience participation:

- On-ice officials are mic'd up (play-by-play games only) to bring the action right to your home; hear them speak to players and coaches, provide instructions and call the penalties just like you are on the ice!

Downloads and DVD's of games are available for sale on our website store.
